

## FRIEND CENTER FOR ENGINEERING EDUCATION

Princeton, NJ

Keating Partners provided project management services for this award-winning building. The three story, 65,000 square foot structure includes classrooms, a library, faculty offices and a state-of-the-art lecture hall. Located on the northeast side of the university campus, the Center is both a hub and connector to surrounding Engineering School buildings.

Our project management services spanned preconstruction and construction to better meet the requirements of a complex program located on a small site and provide guidance in selecting a cost-effective structural framing system featuring an exposed structural frame, special connection details and cantilevered staircases. The project was completed on time and on budget.

### Services

Project Management

### Owner/Developer

Princeton University

### Project Architect

Pei Cobb Freed & Partners

### Value

\$25 Million

111 N. Essex Ave., Narberth, PA 19072
