

RIVERS CASINO PITTSBURGH

Pittsburgh, PA

This 350,000 square foot casino is a prominent City landmark along the Ohio River. The casino houses 3,000 slots, multiple dining, sports betting and event venues and a 3,400-car garage.

Keating Partner's casino project management expertise was instrumental in the completion of the project. The owner initially selected to develop and operate the facility encountered significant financial difficulties early in construction, leading to our involvement with the Pennsylvania State Gaming Control Board in the formation of a well-capitalized and experienced ownership entity to complete the project. Among all Pennsylvania casinos, the project has since been a major success.
